midwest manure summit 2023

February 28, 2023 | Lambeau Field, Green Bay, WI

October 14, 2022

Dear Agribusiness,

The University of Wisconsin-Extension Dairy Program is excited to host the Midwest Manure Summit in Green Bay, Wisconsin. Celebrating its 10th year, the bi-annual Summit will be held at the prestigious Lambeau Field on Tuesday, February 28, 2023. More information can be found on the enclosed flier or at our website: <http://midwestmanure.org>.

Our target audience is progressive dairy owners and managers, educators, consultants, service providers, custom manure haulers, crop consultants, dairy nutritionists, farm management professionals, engineering consultants, and agency staff. An average of 200 people attended the past nine conferences, and attendees came from ten different states as well as Canada, Italy, Mexico, and Argentina.

We started this conference in 2009 with the goal of bringing new on-farm manure handling and processing technologies and ideas to Wisconsin. In our 10th offering, we are looking forward to another successful Summit. Participants will have the opportunity to obtain cutting-edge information on methods to handle, transfer, and process dairy manure in an environmentally sound manner. Tentative speakers will come from universities, government agencies, and industry. Topics such as carbon-cycling and sequestration in manure-based systems, emissions during manure agitation, nitrogen recovery, gasification of manure, and upgrading biogas to aviation fuel will be featured.

We are seeking your industry support for this year's conference by participating as a sponsor and exhibitor. Sponsorship levels are Platinum (\$1,000), Gold (\$750), Silver (\$500), and Bronze (\$250). In return for your support, you will receive the following:

- Company name listed in the brochure with sponsorship level designation
- Company name listed in conference proceedings with sponsorship level designation
- Company name listed at the conference with sponsorship level designation
- Exhibitor space for company booth for Platinum and Gold levels
- Complimentary registration to the conference for representative(s) of your company (Platinum – 3 registrations, Gold – 2 registrations and Silver – 1 registration)

Thank you in advance for your consideration. We are looking forward to working with you. If you have any questions, please feel free to contact one of the Manure Summit Sponsorship Committee members.

Midwest Manure Summit Highlights

- **One-day conference at Lambeau Field**
- **Networking opportunities with 200 estimated attendees**
- **Topics**
 - Manuresheds
 - Centralized manure processing
 - Carbon cycling and sequestration
 - Renewable fuel and low carbon fuel standards
 - Upgrading biogas to aviation fuel
 - Manure NIR sensing systems
 - Emissions during manure agitation
 - Manure pyrolysis and biochar
 - Nitrogen recovery
 - Gasification of manure
- **Featured Conference Speakers**
 - Sheri Spiegall, USDA
 - Allison Duff, USDA
 - Jonathan Sanderman, Woodwell Climate Research Center
 - Hardy Sawall, US Grain
 - Andrew Lucero, Agra Energy
 - Joe Sandford, UW-Platteville
 - Rebecca Larson, UW-Madison
 - Santanu Bakshi, Iowa State University
